Dwayne,
Spoke to John Fleck from Artic Refrigeration in regards to his response time to the site. He is unable to respond at this time until after the 4 July holiday. The big question that has arisen from this conversation was the size of the water tank that would be needed for the scrubber system. This was supposed to be sized from the owner's engineer; if you can get this information I will be able to set up a delivery of a Frac tank to site to arrive on Tuesday.

Thank you
